**2011 REAPPRAISAL PROCESS**

County Assessor Stan Duncan discussed the proposed 2011 reappraisal via a Power-Point presentation, with additional commentary from Steve Dozier, a local real estate agent, and Greg Burnett a local lending agent.

Market Value is “Value in Exchange” but not necessarily the most recent price paid in an arm’s length transaction when competent evidence of a different value is presented, and not the highest or lowest value, but the most probable value meeting the requirements of the Uniform Appraisal Standards, and not a “foreclosure” or “short sale”.

**Statutory Distinction**

- For the Real Property Appraisal staff – The Schedules of Values, Standards and Rules are to be “sufficiently detailed to enable those making appraisals to adhere to them in appraising real property.”
- For the Property Owners – A property record card must be prepared and “maintained in sufficient detail to enable the property owners to ascertain the method, rules, and standards of value by which property is appraised.”

The task is to reappraise all real property at Market Value effective as of January 1, 2011.

Total Parcels of Real Property - 65,658

- 62,440 Parcels with Land

Henderson County Months Supply Index

Additional Factors to Consider

6 Months Supply is considered a Neutral Supply of Homes. Less than 6 months is a Sellers Market, more than 6 is a Buyers Market.
Henderson County Land Months Supply Index

Additional Factors to Consider

Greg Burnett, Executive for First Citizens Bank, explained that for the last several years banks have been relying less on tax values as a method of valuing property for a credit decision. As the real estate markets become more volatile, banks in their underwriting process, were taking the much more conservative approach in trying to back down values that they were lending against. The FDIC and the Office of Thrift Supervision will not allow a bank to lend solely upon tax value, there has to be further analysis. A bank must determine what a sales price is in relation to the value of that property. For the majority of those mortgages that are conforming or sold, a true appraisal must be done in order for that loan to be sold. The most common consumer based credit secured by real estate is an equity line. For those type transactions under $100,000.00, it is possible to use tax values when 50% or less is borrowed. If more than 50% is borrowed an automated valuation model is used. Mr. Burnett stated there is negative impact on customers because they are recognizing the fact that the property value is lower.

Chairman Moyer stated the public hearing on scheduled values has been set giving the new Board maximum flexibility. It was the consensus of the Board that the reappraisal schedules continue.

WNC BEEF CATTLE LIVESTOCK MARKET
At the November 19, 2008 Board of Commissioners meeting, the Board unanimously voted in favor of a Resolution of Endorsement supporting a beef cattle livestock market to be located in Western North Carolina. Additionally, at the April 6, 2009 meeting, the Board adopted a resolution authorizing the county to make a $10,000 contribution toward the livestock market.

The County has recently received a request for an additional contribution for the Livestock Market, which is currently $37,500 short of the necessary funding. Several counties are considering providing additional funding, and Buncombe County has pledged a 50 cent match on the dollar for any additional contributions. Any additional funding that Henderson County could provide would be of assistance in closing their funding gap.

Transylvania County has made a $5,000 contribution with a $2,500 match from Buncombe County bringing the shortage to $30,000. Mitchell, Macon, and McDowell Counties and possible others are still considering amounts to contribute.
County Manager Steve Wyatt noted that funds are set aside for agricultural related projects. He suggested the Board consider an “up to” amount.

*Commissioner Moyer made the motion that the Board authorizes going up to an additional $5,000 and have the County Manager work with other counties to close the gap. All voted in favor and the motion carried.*

**PUBLIC HEARING - Water and Sewer Hook-Up Grant Amendment**
*Commissioner McGrady made the motion that the Board go into public hearing in regards to the Water and Sewer Hook-Up Grant Amendment. All voted in favor and the motion carried.*

Parker Sloan stated the NC Department of Commerce reserved $75,000 in additional CDBG Grant Funds for the Henderson County Hook-Up Grant (09-C-2029) subject to receipt of an amended grant application identifying the homes to be connected to public water or sewer. Eligible home owners must be low and moderate income and must be located adjacent to service lines. The grant will pay for tap fees and connections of the homes. Assisted households will be selected on a first to apply first to qualify basis. Funds are available to connect 26 or more additional homes. Staff is reviewing a list of applicants to determine availability of lines to connect to and will undertake additional marketing of the program until a sufficient number of eligible applicants has been compiled.

No matching County funds are required for this grant.

**Public Input**
There was none.

*Commissioner McGrady made the motion that the Board go out of public hearing. All voted in favor and the motion carried.*

*Commissioner McGrady made the motion that the Board approves the submittal of a grant amendment to the NC Department of Commerce for $75,000 of additional Hook-Up funds and that the Chairman be authorized to sign the grant documents. He further moved that the Board approves the Budget Amendment, as submitted, appropriating these additional grant funds. All voted in favor and the motion carried.*
