BREAK
A break was taken.

Chairman Edney called the meeting back to order.

Steve Wyatt and Carey McLelland provided the mid-year financial report. Mr. Wyatt explained that two years prior the report had gone to a cost accounting type basis where the costs, of facilities, utilities, etc., are built into the departments. The Board has the option of continuing or changing the report to a more traditional method. Where you see that the percentage is substantially below 50% (i.e. Governing Body), there is probably a debt service payment to be made based on schedules throughout the year. A column could be added to deal with the debt service issues.

Carey McLelland explained that during the year the Sheriff received new grants prior to budget ordinance adoption. Those expenditure revisions are the result of a revenue revision that would be grant related.

The Commissioners requested that an additional column be added for debt service. Debt service is primarily for capital construction projects.
