Minutes

   October 6, 2014 – regularly scheduled meeting

DATE APPROVED: November 3, 2014
October 15, 2014

**Tax Collector’s Report**

Collections Specialist Luke Small had presented the Tax Collector’s Report to the Commissioners dated October 2, 2014 for information only. No action was required.

**457(b) Plan through the North Carolina Public Employee Deferred Compensation Plan**

The Board was asked to approve a resolution to offer a 457(b) Plan through the North Carolina Public Employee Deferred Compensation Plan (referred to as NC 457). Currently, Henderson County offers employees the opportunity to participate in a 457(b) through Nationwide Retirement Solutions. Those employees currently participating in the Nationwide 457(b) will be able to continue contributions; however, new enrollees will be offered participation in the NC 457.

The NC 457 is a deferred compensation plan available exclusively to North Carolina public employees. While both 457 plans conform to section 457(b) of the Internal Revenue Code, the NC 457 is a state-sponsored plan which is overseen by the North Carolina Department of State Treasurer. As a state-sponsored plan, the Department of State Treasurer ensures competitive fees, satisfactory performance of the plan and all fiduciary responsibility. Currently, expenses fees associated with the NC 457 are lower than those for the Nationwide 457(b). With the NC 457, retiring employees will have additional retirement payout options (i.e., ability to transfer all or a portion to the Retirement System and draw a second monthly lifetime check) available upon separation from service.

Motion:

*I move to approve the resolution to offer a 457(b) Plan through the North Carolina Public Employee Deferred Compensation Plan.*

**Proposed Changes to the Henderson County Property Addressing Ordinance**

On August 20th, the Board of Commissioners enacted a 120 day moratorium on changes in road names already accepted under the Henderson County Property Addressing Ordinance and directed Staff to bring back proposed changes for the Board’s consideration. The moratorium was a result of multiple road name change requests within the last year.

Several proposed amendments to the Property Addressing Ordinance were provided for the Board’s review that include: reformat ordinance for consistency, clarify definitions and remove duplicate definitions, standardize street sign requirements, require new procedures for naming streets, and authorize the Zoning Board of Adjustment to process appeals, this is consistent with the Land Development Code requirements for appeal procedures. Staff had provided the Board with a copy of the draft ordinance with proposed changes incorporated and a copy showing all the track changes.

Motion:

*I move that the Board approves the proposed amendments to the Property Addressing Ordinance; and further move that the Board lifts the current moratorium enacted on August 20, 2014 concerning changes in road names already accepted under the Henderson County Property Addressing Ordinance.*

**Proclamation – Mainstay’s 30th Anniversary**

The Henderson County Board of Commissioners was requested to adopt a Proclamation congratulating Mainstay on its 30th Anniversary.

Motion:

*I move the Board adopts the Proclamation celebrating Mainstay’s 30th anniversary.*

A request has been submitted on behalf of the Sheriff’s Department for use of the Courtroom on Friday, October 24, 2014 from 5:00 p.m. until 9:00 p.m. for a promotion ceremony.

AFFORDABLE CARE ACT (ACA) OUTREACH KIOSK IN DSS BUILDING
DSS Board Chair Sharon Tirrell and DSS Board Member Penny Summey provided the following information.

The Board of Commissioners is requested to consider a proposal from the Board of Social Services, to engage in a Request for Proposal (RFP) to select an insurance vendor to maintain an information kiosk in the DSS lobby to assist in Affordable Care Act outreach in conjunction with the opening of the Federal Marketplace. Such a service supports HCDSS responsibility for ACA outreach and support of uninsured citizens of Henderson County to access health care. This service would also support a core mission of HCDSS to provide simplified access to health and wellness information for low income populations. Provisions of this service would be at no cost to Henderson County or the HCDSS.
The Henderson County Board of Social Services approved this action at their monthly meeting on Tuesday, September 16, 2014. The DSS Board would like to recommend to the Henderson County Board of Commissioners that DSS be given the authorization to engage in a RFP to select a provider for this service. Should that authorization be granted, Staff would bring back at a future meeting an MOU with the selected vendor to provide information through a kiosk in the DSS lobby to the general public as well as DSS clients.

Commissioner Hawkins made the motion that the Board deny the request, not granting authorization or providing a MOU (Memorandum of Understanding) for the Department of Social Services to allow a kiosk in their lobby, or change the Facility Use Policy. All voted in favor and the motion carried.

SURFACE TRANSPORTATION PROGRAM DIRECT ATTRIBUTABLE (STPDA) FUNDING FOR HENDERSON COUNTY TRANSIT STATION/TRANSFER CENTER
Transportation Planner Matt Cable stated at its April 16, 2014 meeting, the Board of Commissioners authorized staff to request the French Broad River Metropolitan Planning Organization (FBRMPO) amend the NCDOT State Transportation Improvement Plan (STIP) to adjust the release of previously awarded STPDA funds from FY 2015 to FY 2016. This authorization provided staff additional time to consider use of the funds for the previously submitted transit station proposal.

Staff reviewed the transit station project related to site selection regulation compliance, project location, project purposes, grant funding requirements/restrictions, existing transit system use, and transit ridership.

Staff assessed existing County facilities (office space and parking facilities) and supports using existing underused facilities to meet the needs of the transit system. Using existing facilities to house contracted employees and store vehicles would not subject the County to federal funding requirements/restrictions and would alleviate the need for supplying the substantial required local match.

Staff recommends the County not accept the existing awarded STPDA funds for the transit station project (see attached memo). Henderson County would continue to be eligible to seek STPDA funding for transit/transportation projects in future STPDA award cycles.

Commissioner Thompson made the motion that the Board rescinds the FBRMPO awarded STPDA funding at this time. All voted in favor and the motion carried.

2015 REAPPRAISAL – SCHEDULES OF VALUES, STANDARDS, AND RULES FOR MARKET VALUE AND PRESENT-USE VALUE
Assessor/Tax Collector Stan Duncan provided a presentation of the 2015 Schedules of Values, Standards, and Rules for Market Value and Present-Use Value.

The North Carolina General Assembly, and no one else, determines how property in this State should be valued for purposes of ad valorem taxation. 287 N.C. 547, 215 S.E.2d 752 (1975)

Board Resolution; 17 Nov. 1993
States in part;
WHEREAS, since change (variation in values) is so much a part of the nature of real estate, the County wishes to recognize this variation in values as soon as possible which would be accomplished by advancing the reappraisal date from January 1, 1998 to January 1, 1995.

NOW THEREFORE BE IT RESOLVED, by the Henderson County Board of County Commissioners as follows: That the effective dates of all reappraisals after January 1, 1995 be advance(d) to be effective every four years thereafter.

Vollie G. Good, Chairman; and members – J. Michael Edney, Hugh D. Randall, William McKay, & Renee Kumor
Beginning in 1995, Henderson County has reappraised on a 4-year cycle.

- 2015
- 2011
- 2007
- 2003
- 1999
- 1995
- 1990
- 1982
- 1974

The reappraisal task:
Approximately 66,500 Parcels of Real Property for Market Value
Approximately 1,650 Parcels under Present-Use Value
Approximately 1,380 Parcels under Tax Relief
Approximately 1,950 Parcels under Full or Partial Exemption

Uniform Appraisal Standard
"All property, real and personal, shall as far as practicable be appraised or valued at its true value in money. When used in this Subchapter, the words ‘true value’ shall be interpreted as meaning market value, that is, the price estimated in terms of money at which the property would change hands between a willing and financially able buyer and a willing seller, neither being under any compulsion to buy or to sell and both having reasonable knowledge of all the uses to which the property is adapted and for which it is capable of being used."

N.C.G.S. 105-2983

Market Value is Value in Exchange, but
- NOT necessarily the most recent price paid in an arm’s length transaction WHEN competent evidence of a different value is presented, and
- NOT the highest or lowest value BUT the most probable value.
- NOT a foreclosure or “short sale”

Present-Use Value is Value based ONLY on one element of value,
The ability of the specific soils of a given parcel to command a land rent for the purpose of an agricultural or horticultural use, or the present worth of a future income stream based on the anticipated commercial harvest of trees.

Other Considerations are that Reappraisals recognize and measure change. Not all properties “change” at the same rate. The differences to be accounted for are Property Location and Property Type.
The purpose of the Henderson County Agriculture Districts is to increase identity and pride in the agricultural community, encourage economic and financial health in agriculture, and improve protection from non-farm development and other negative impacts on properly managed farms.

MEMORANDUM

TO: John Mitchell, Business & Community Development Director  
FROM: Matthew Cable, AICP, Transportation Planner  
DATE: October 15, 2014  
SUBJECT: Staff Recommendations Regarding the Existing Transit Station Proposal

Current Transit Operations

Transit routes originate from and transfer along North Grove Street, in the bus lane southeast of the intersection of 4th Avenue East and North Grove Street. The contracted provider (WCCA) uses its own office space, meeting rooms, break rooms, and secured parking located at the corner of Ashe Street and 7th Avenue. The County reimburses WCCA for the cost of these facilities through its contract. Customers can acquire transit brochures from holders inside each vehicle, WCCA’s transit offices, and the County Planning Department. WCCA operators (drivers) and office staff sell passes on transit vehicles and at WCCA’s offices.

Existing Transit Station Proposal: 4th Avenue East

The STPDA application suggests a transit station will provide: (1) a central location for customers to transfer between routes, acquire information/passes, waiting areas, and restrooms; (2) office space, dispatching facilities, meeting rooms, break rooms, and restrooms for our contracted provider and its employees; and (3) secure parking/holding facilities for eight (8) buses. The transit station would improve customer service, reduce costs of contracted services through reductions in reimbursements for WCCA owned facilities, and provide for a more competitive bid process in future fiscal years (as additional agencies would more easily compete to operate the system). For purposes of pursuing the STPDA funds, the County identified a site at 4th Avenue East between the CNG station and Jackson Park.

Awarded Funding and Local Match Requirements

The FBRMPO awarded the County $1,672,000 in NCDOT Surface Transportation Direct Attributable (STPDA) funds with a required $418,000 local match. The STPDA application indicates the project will be at the 4th Avenue East site and include an office building. Modifications to this project scope would require reconsideration by the FBRMPO.

The funds are currently available and NCDOT expects the County to begin accessing these funds quickly. Should the County choose to rescind the funds, the funds would remain in the FBRMPO region for use on other eligible transportation projects.

Construction Costs and Concerns: 4th Avenue East

The County must first select a consultant to perform an FTA required site selection process meeting all Title IV Environmental Justice/Equity Analysis requirements. This process may eliminate the 4th Avenue
East project as a location should the site selection process not identify it in the results. Where the site viable following the site selection process, to use the site the County will need to: (1) request a rezoning through the City of Hendersonville and be granted the request; (2) enter into an agreement with NCDOT to ensure compliance with NCDOT and Federal Highways (FHWA) requirements; (3) engage consultants to perform NCDOT/FTA required pre-construction studies including, but not limited to an Environmental Analysis; (4) conduct FTA compliant bidding for engaging an architectural and engineering firm for station design; (5) work under the guidance of NCDOT Local Programs Management Office during the planning and design phase of the project; (6) engage NCDOT Division 14 during station construction; and (7) engage consultants to work with NCDOT to ensure record keeping is compliant with FHWA requirements for the anticipated audit.

Actual costs not provided for in the grant funding include: (1) City of Hendersonville application and permitting fees; and (2) engaging consultants to perform NCDOT and FTA required studies and monitor FHWA compliance. Concerns include project delays or loss of grant funding should the site be infeasible.

The site would not be feasible if: (1) an NCDOT or FTA required study eliminates the site as a permissible location, or (2) the City of Hendersonville denied the rezoning request.

Should FTA, NCDOT, or FHWA determine the County violates any of its regulations, requirements or guidelines these entities could suspend the project or recall any or all of its awarded funding following project completion.

**Staff Recommendations Based on Transit System Needs**

Staff reviewed current transit system operations and the original transit station proposal to determine needs. Staff recommends the County not relocate the existing transfer site from North Grove Street because the site is well established, highly visible, convenient, and well frequented by a growing base of transit customers. Staff suggests locating transit offices immediately adjacent to the transfer site is not vital to the success of the transit system.

Staff continues to recommend the County establish the following: (1) office space, dispatching facilities, meeting rooms, and break rooms for the transit system’s contracted provider; (2) a parking and holding facility for the existing fleet (seven (7) buses and two (2) paratransit vehicles) of which 5 vehicles are County leased/owned; and (3) a convenient site for customers to acquire information/passes;

Addressing these needs would improve customer convenience, provide better security for County vehicles, reduce contract costs attributed to provider supplied office and parking space, and potential cost savings through a more competitive bid process in future fiscal years.

The County should consider using its existing underutilized facilities to meet transit system needs.
