

Deputies and investigators of the Henderson County Sheriffs' Office spent the early evening going to the listed residences of registered sex offenders living in Henderson County, to validate the accuracy of address listings.

"At least once a year, our Office conducts an announced residence check of all sex offenders registered in Henderson County. This lets them all know that we take registration seriously. We will continue to do aggressive scheduled and un-scheduled verifications to ensure that convicted sex offenders are where they say they are. While some may argue that it seems invasive; it is permitted within the scope of the law. If they don't like the fact that we hold them accountable here in Henderson County, they are free to move elsewhere. It would probably still be a good idea to register there as well however" said Sheriff Rick Davis.
